GOVERNMENT OF MYSORE—ELECTRICAL DEPARTMENT.

Abstract Notification dated 2nd May 1938.

The attention of the public is invited to the detailed Notification of date, calling for tenders for providing electric lights to the College Association attached to the Intermediate College, Bangalore, published on pages 702-703, Part VI of the *Mysore Gazette*, dated 5th May 1938.

Abstract Notification dated 3rd May 1938.

The attention of the public is invited to the detailed Notification of date, calling for tenders for the installation of Electric Lights to "Bel" Bungalow at Shimoga, published in pages 712-714, Part VI of the *Mysore Gazette*, dated 5th May 1938.

S. G. FORBES,
Chief Electrical Engineer.

OFFICE OF THE DIRECTOR OF INDUSTRIES AND COMMERCE IN MYSORE, BANGALORE.

Notification dated 3rd May 1938.

TENDER FOR THE MANUFACTURE AND SUPPLY OF WEIGHTS AND MEASURES.

1. Tenders in the form hereto appended are hereby invited for the manufacture and supply of certified weights and measures to the public in the areas notified under the Mysore Weights and Measures Act.

2. The privilege for which tenders are now invited will be considered subject to the conditions specified in para 5 below, and the provisions under the Mysore Weights and Measures Act and Rules in force thereunder.

3. Each tender must be accompanied by a deposit of Rs. 1,000 in cash, or in Government Securities of equivalent value, duly endorsed in favour of "The Director of Industries and Commerce" and enclosed in a sealed cover, superscribed with the words "Tender for the manufacture and supply of Weights and Measures" and must be sent to the Director of Industries and Commerce in Mysore, so as to reach him before noon on 1st June 1938, after which date no tender will be received. The tenders will be opened by the Director at his Office in Bangalore at 12 noon on 3rd June 1938, in the presence of such of the applicants as may be present. The final disposal of tenders will rest with the Government, who reserves to themselves full power to reject any or all of the tenders without assigning any reason. The deposits made by the applicants whose tenders are rejected will be returned to them on their application and in the case of the successful tenderer, the amount will be taken a as permanent deposit.

4. The applicant whose tender may be finally accepted by Government, shall within fifteen days of the acceptance of his tender being communicated to him, execute an agreement in the form prescribed on proper stamp paper binding himself to conform to the conditions hereinafter set forth, and if he fails or refuses to sign the agreement required within such period, the deposit already made by him, will be forfeited to Government and the contract otherwise disposed of.

5. The contract for which tenders are now invited, shall be subject to the following conditions:—

(*a*) The manufacturer shall manufacture Weights and Measures according to the specifications annexed (Schedule I) and make them available for sale to the public in the 32 notified areas (*vide* Schedule II) through his own agencies at prices to be fixed by Government.

(*b*) The Weights and Measures so manufactured by the manufacturer shall be got tested and stamped by a Government Testor at his own expense before they are sold to the public in the notified areas.

(*c*) The manufacturer shall always keep in stock an adequate supply of weights and measures to meet the needs of the public in the notified areas. A statement showing the approximate demand in the 32 areas is annexed (*vide* Schedule III).

6. In case of breach of any of the foregoing conditions, Government will be at liberty to cancel the contract and to declare the deposit made by the manufacturer forfeited and also to recover from the defaulting contractor such further loss as may be occasioned by such breach.

7. The contract shall not be transferable except with the approval of the Government of Mysore.

8. The contract shall be in force for a period of five years provided that all the foregoing conditions are fully observed.

Form of Tender.

To

The Director of Industries and Commerce in Mysore,
Bangalore.

Sir,

With reference to Notification No. , dated 1938, published in the *Mysore Gazette*, I beg to tender "for the privilege of manufacturing and supplying certified weights and measures," to the public in the 32 notified areas under the Mysore Weights and Measures Act, for a period of five years from.....subject to the terms and conditions specified in the notification above quoted.

2. I append herewith the rates at which I am agreeable to sell the weights to the public in the several notified areas.

3. I enclose.....for Rs. 1,000 as required by para 3 of the said notification.

I beg to remain,
Sir,
Your most obedient servant,

Place.....

Date.....

SCHEDULE I.

(A)

Maund Weights.

The weights should be Bar weights of the "Lift Type." On their top surface the denominations should be engraved in bold letters both in Kannada and English. The Mysore Government Crest should appear boldly on two sides. The weights should have smooth undersurface free from holes and flaws. Each weight should have a quantity of lead plugged into a square slot of a convenient size at the bottom to facilitate stamping.

Each set of weights should consist of the following :—

Two maund, one maund, half-a-maund, one-fourth maund, one-eighth maund, one-sixteenth maund and one-thirty-two maund.

Mysore maund should be equal to 40 Mysore seers of 24 tolas, each tola being equal to 180 grains troy in weight, the sub-multiples of a maund being fractional parts of a maund.

(B)

Seer Weights.

A complete set of seer weights should consist of the following :—

1 seer weight	..	24 tolas
½	do ..	12 „
¼	do ..	6 „
⅛	do ..	3 „
1/16	do ..	1½ „

each tola should be equal to 180 grains troy in weight.

The weights should be of good gun metal, clean and sharp and free from flaws, sand or air-hole. The inner surface of the weights should be flat and the horizontal section circular.

Every weight should have its denomination stamped on the top in legible figures and letters in English and Kannada and the Mysore Crest engraved. The upper surface should also be flat except where depression on account of the abovementioned figures and letters occur.

Specifications for Iron Measures.

(B)

(1) The measures shall be of good galvanised sheet iron 1-32" thick.

(2) Each set of measures shall consist of the following denominations :—

(i) one full measure,
(ii) one-half measure,
(iii) one-quarter measure,
(iv) one-eighth measure,
(v) one-sixteenth measure.

(3) Each seer measure shall be of the correct capacity, *viz.*, able to hold one seer measure clear water weighing 108 tolas weight, a tola being equal to 180 grains troy of distilled water at its maximum density and under the normal atmospheric pressure. Every sub-multiple of it shall be of proportionate capacity.

(4) The bottom of the measures shall be flat and the joints rivetted and well-finished. The base should be as far as possible a plane one and the interval diameter of measure should be equal to 51 per cent of the depth.

(5) The measures shall be made water-tight by lead soldering the side joint.

(6) Every measure shall be stamped on the barrel with its denomination in legible figures and words in Kannada and English and also with the Mysore crest above it.

(7) The measures shall be supplied in complete sets of five each.

SCHEDULE II.

Places declared under Section 3 of the amended Weights and Measures Regulation, for the compulsory use of certified Weights and Measures.
